

# ALL GAMES ARE NOW BEING LIVE SCORED!

Using the WNC iPads provided, all games in the WNC / WNNA competitions are to be scored using the Netball Connect App.

1. iPads for Live Scoring are handed out to the Scorer from the first named team, for the first game on your court, for the day.
2. If you are not the first game on court for the day, please arrive early to the court and collect the iPad from the previous game scorers.
3. **The SCORECARD is a backup plan!**

We still require teams to collect the scorecard prior to each game. You can use the scorecard to write down the players playing until you get a chance to record the players on the Live Scoring app.

*Players who are not able to be found using the Borrowed Player function can be handwritten on to the scorecard with full name and mobile number.*

## IPAD PROTOCOLS

---

- The FIRST named team is responsible for the iPad.
- At the end of the game, please hand the iPad over to the next game's scorer or return to reception. *Do not leave unattended at the score bench.*
- Due to the short turnaround time between games, scorers are encouraged to arrive early to your court, collect the iPad from the previous game scorer and start the process of entering players into the app.
- The official score is the iPad score.

**Thank you for volunteering to score!**

Please notify reception if battery is getting low!
